Re: Aerosolized Treatments

To: All EMS Personnel

Upon arrival at all Stanislaus County Hospitals, **PLEASE CONTINUE TO DISCONNECT ALL AEROSOLIZED TREATMENT PRIOR TO ENTERING THE HOSPITAL**. This is recommended by the California Department of Public Health (CDPH), that ALL aerosolized treatments are to be discontinued prior to entering an acute care facility, while the pandemic remains in effect.

Hospitals are bound to rules and regulations imposed by CDPH, which include the cessation of aerosolized treatments, prior to entering the facility.

Thank you for your cooperation.

Regards,
